SKILLS

- **Front-end:** HTML5, CSS3, JavaScript (ES6+), React, Bootstrap.
- **Back-end:** Python, Django, Django REST Framework, RESTful APIs (JD).
- **Databases:** SQL, relational database design, MySQL.
- **Tools & practices:** Git, GitHub, VS Code, Linux basics, debugging, unit testing, and deployment (Vercel).

LANGUAGES

- English (Fluent)
- Arabic (Native)

PROFILE

Full-stack web developer certified through the Meta Full-Stack Developer Professional Certificate, with hands-on experience building end-to-end web applications using React, Python, Django, and SQL. Skilled in creating responsive user interfaces with HTML5, CSS3, JavaScript (ES6+), React, and Bootstrap, and in implementing RESTful APIs and server-side logic with Django and Django REST Framework. Proficient in integrating relational databases, writing SQL queries, and using Git/GitHub for version control, debugging, testing, and deployment. Seeking a junior full-stack developer role where I can contribute to real-world products and grow within a collaborative engineering team, with experience working in agile environments, reviewing code, and collaborating via GitHub.

PROJECTS

• Reservation System

Built a restaurant reservation system with Django & Django REST Framework, including table availability management, booking validation, and CRUD operations.

• To-Do List App

Developed a React SPA for task management with stateful components, filtering, and local storage persistence.

• Calculator App

Created a React calculator app handling input validation and edge cases using functional components and hooks.

• Built and deployed multiple responsive marketing websites using HTML, CSS, JavaScript, and Bootstrap, optimized for mobile and SEO basics.

EDUCATION

Arab Academy of Science and Technology (AAST)

2023-Present

Bachelors in Business Information Systems

Relevant coursework: information systems, databases, business applications.

CERTIFICATIONS

• Meta Full Stack Developer Professional Certificate—Coursera 2026 (10-Series Course)

Covered front-end (React), back-end (Django, APIs), databases, and version control with Git/GitHub.
